

Here we go again. Just when I start using a great service that I pay for, the old providers of that service feel that I should be held captive to their services which for the most part are very poor. Until XM was available I had to listen to terrible chatter as I drove to work in the morning and returned home in the evening, infrequent news, and the same commercials over and over again. There was no choice.

With XM the choices are many, music is music, just not some loud noise, and if I need travel and weather info as I drive through many of the large metro areas I know where to find it.

NAB's petition 04-160 is an attempt by those who have sat on their backs for years and have done nothing to serve the interests of their communities.

NAB is only interested in the quick and easy dollar. If they were not maybe I could clearly hear their stations instead of those stations going off the air very often as happens here in Columbus, GA.

Please do not take a great service away from the citizens of this country.

Thank you.
